Rodgers Beach 2nd Pier Coming Along.

Construction on the 2nd pier is coming along great, even the kids are enjoying this pier, it's so great to see kids being kids, and not growing up too fast. There was lots of pushback on these constructions as persons think these funds should go elsewhere in this Corona Virus stage. However the minister has informed that this budget was already assigned for this construction.

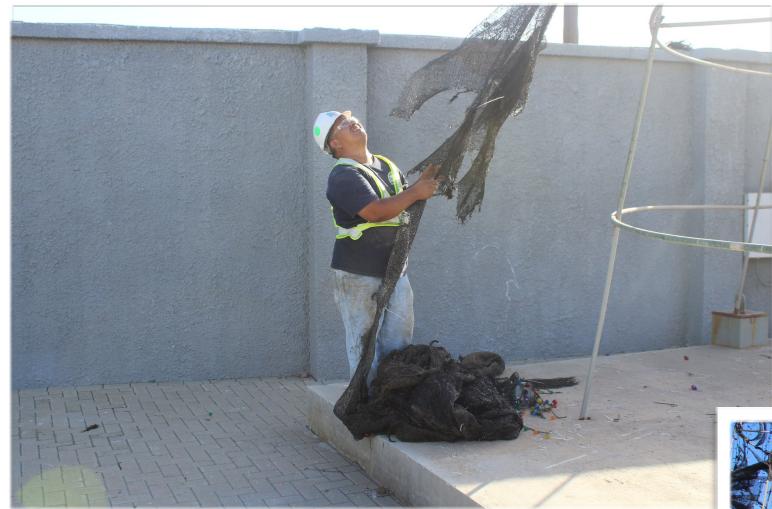

Addicts Taking Over The Streets Of San Nicolas

Yes the problem is growing as the addicts that roaming the streets of San Nicolas is growing day by day. Keeping in mind that the drugs does affect the mental state of the persons that uses it, anything can happen to anyone once these addicts FLIP. A clear example is the one in the picture normally you see him around the promenade, and KFC area, however what he does regularly is show his private parts to passersby, keep in mind there are schools close by so underage kids are witnessing this inappropriate behavior. Police were informed, however please keep an eye out.

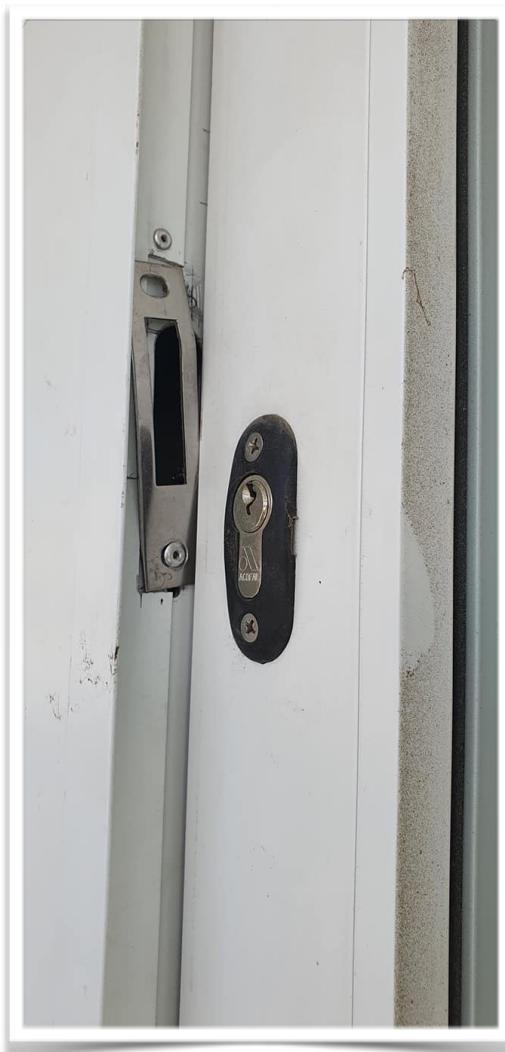

Action Has Started With The Cleanup!

From the moment we wrote about the disgust in the community over the large Christmas tower, and its condition, within 24 hours the ball started rolling. We were informed that the idea of this Christmas tower was to decorate this with the times, such as Carnival time decorate it in carnival decorations and so they would have continued the entire year, however when Covid-19 hit, all plans got delayed.

San Nicolas Investor Tired Of Being Robed .

San Nicolas investor Tito Bolivar has once again had his business broken into, the sad part about this time was that Mr. Bolivar who does mural tours (walk around with tourist showing them all the art and murals in the main street) noticed the break in during one of his tours, he kept his composure because he was busy giving a group of tourist a tour, Mr. Bolivar then told the group of tourist to go and enjoy a nice meal at Oniels that is also situated on the Promenade, so he could follow up on the brake-in . We keep complaining that no one wants to invest and come San Nicolas, seeing what happened here, can you blame them? We need to keep an better eye out, and protect the little that we have, so we can keep growing.

The Aruban Rasta Community Celebrated Haile Selassie 128th Earthstrong.

The well respected Rasta Community came together to celebrate His Imperial Majesty Qedamawi Haile Selassie 128th earthstrong, with drumming and positive vibes his Majesty's earthstrong did not pass unrecognized.

Aruba Drains Need To Be Fixed

With the little rain that fell this weekend, emergency units were called in less than 2 hours due to lack of drainage that caused flooding in homes and much more avoidable problems. We were spared from the full storm.

We do hope the departments in charge see exactly where these issues are, and start to work on these problems, because if a big storm hit, the entire island might sink as the water has nowhere to go.

Rodgers Beach Left Dirty Again! Please Take Your Trash With You!

Again persons using the shade at Rodgers Beach celebrated, had fun, then did not clean up completely after. We do recommend for you to take your trash with you, because leaving plastic bags open full of plastic next to the ocean is not a good idea as they can get into the ocean and damage the same thing you came to enjoy. So again Take All The Trash With You!

San Nicolas Very Own Xander Bogaerts Received His Silver Slugger Award.

Aruba's flag fly high once again as our very own San Nicolas boy Xander won a Silver Slugger Award, we are very proud of you, just keep making us proud, and keep being humble the way your parents raised you. This is just an example of the talent we have on this island, and we must keep pushing the kids in sports if they like it, and is good at it.

Enjoy Some Photo's Of Aruban Nature After We Were Blessed With Some Rain.
